**AWARDS:** Each entry will be classified at move in, and judged by independent judges.

## HOW TO DISPLAY YOUR VEHICLE

Your vehicle is judged in five areas, Body and paint, interior, engine, undercarriage, its overall detail and cleanliness. Each of these areas are evaluated on the quality, difficulty and extent of the change or modifications made to the vehicle.

Judges can only evaluate what can be seen. If you want the engine, trunk and interior judge, leave your vehicle open as your wish it to be judged, from the show opening to the awards. If your vehicle has modifications which are not readily visible, document them in a handbook placed in a visible location in the vehicle. This will ensure that the judges become aware of all modifications.

Displays are an important part of showing your entry. A good display only enhances your vehicle. Your display should have stanchions, rope or an enclosure that will protect your vehicle. Flooring such as carpet helps in setting off your vehicle from others.

If you have lights or neon signs incorporated in your display. Please request electrical form from NES Electrical by calling 604-469-2726.
